# Assembly

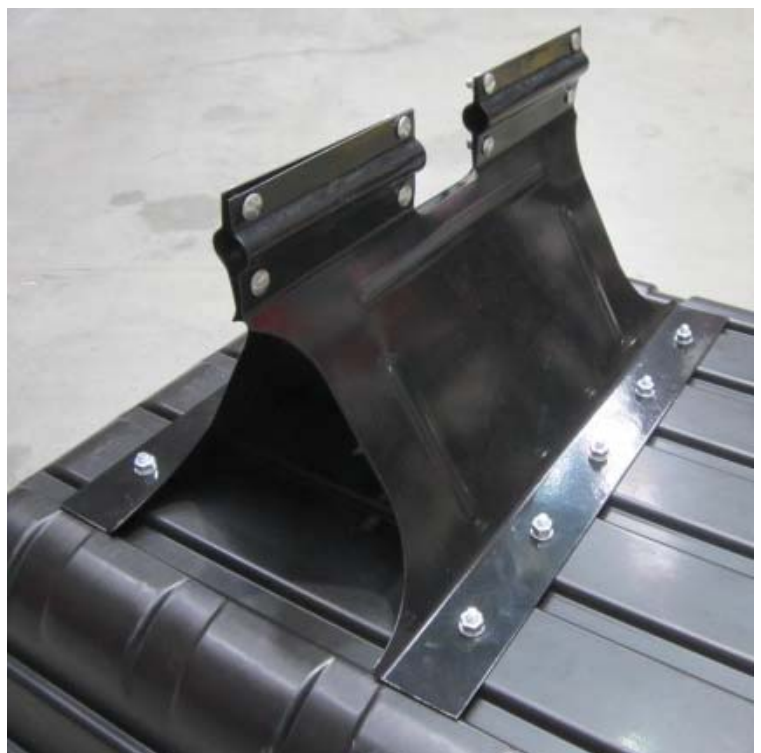

---

## IMPORTANT SAFETY INSTRUCTIONS

- When inflating tyres we recommend using a bicycle or foot pump to prevent over inflation. The maximum pressure is 30psi. Never use air compressors as the risk of over inflation and bursting is high
- Do not allow children to use the cart without supervision, it is not a toy
- Do not exceed 15km/hr.

### STEP 1

Fit the axle supports to the tray. Fit the bolts but do not fully tighten at this point

## Assembly

---

### STEP 2

Fit the front tray support and handles

When attaching the handle fit the 2 plastic spacers.

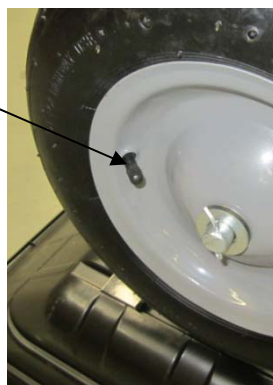

# Assembly

## STEP 3

Fit the drawbar, axle and wheels

Fit the wheel so the air valves face out

Fit the tow tongue

## STEP 4

Tighten and recheck all bolts
